# Identification number on california driver's license

All California residents need to have a valid California DL to operate a motor vehicle. Application requirements vary based on your individual situation (see below). If you are over 18 years of age and you have never had a DL in any state or country, you may obtain an instruction permit until you are ready to take your driving test. A provisional instruction permit is only for drivers under the age of 18. An instruction permit would be issued to a person over age 18. Once you complete the requirements of the instruction permit, you can take the driving test to get a California DL. Apply for an instruction permit Here's how you apply for a California DL if you already have a valid DL that was issued by another state: Start a DL application online If you have a DL issued by another country, follow the application process listed above for "I have a DL issued by another state." You'll also need to pass a driving test to obtain an original California DL. To take your driving test: Schedule a driving test appointment (driving tests are not given without an appointment). You may also call 1-800-777-0133 during the regular business hours to make an appointment.Provide proof of financial responsibility (insurance) that meets or exceeds California insurance requirements. Your application fee allows you three attempts to pass the driving test. If you fail the driving test, you must schedule a new driving test on another day and pay a \$7 retest fee. If you fail the driving test three times, your application is no longer valid and you must reapply. Any Californian who can prove their current legal presence in the United States (U.S.) with one of the accepted identity documents (original or certified copy) is eligible to receive a standard or REAL ID driver license or identification (DL/ID) card. This includes all U.S. citizens, permanent residents who are not U.S. citizens (Green Card holders), and those with temporary legal status, such as recipients of Deferred Action for Childhood Arrivals (DACA) or Temporary Protected Status (TPS) and holders of a valid student or employment visa. For Californians with temporary legal status, their DL/ID card will expire depending on their immigration status, will expire on the same date as their U.S. legal presence document, and they can receive a new card with a documented extension of their legal status. See the full list of acceptable identity documents for a Federal Non-Compliant or REAL ID Compliant DL/ID card. There are many other ways to prove that you are legally present in the United States: If you were born in the U.S., you may provide a U.S. birth certificate, passport, or passport card.If you are an immigrant to the U.S., you may provide a U.S. citizen naturalization or citizenship document, or a Permanent Resident Card.If you are a non-immigrant, but are authorized to be in the U.S., you may present a Temporary Resident Identification card or other temporary resident documentation. Your DL will remain valid until the expiration date printed on the card. If you no longer maintain U.S. legal presence, you can convert your DL to an AB 60 DL. Skyhigh CASB supports the following definitions, validation, and keyword information for U.S. driver's license number data identifiers. NOTE: Skyhigh CASB regex includes an extra backslash to conform with JSON string structure. Naked regex would have only one backslash, but regex in strings requires the extra backslash to be escaped.
